REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 2-5, 12-15, 19-24 and 29-53 are allowable because none of the prior art of record suggests a converting optical system for directing light from any of a light source image formed by an imaging optical system on a predetermined plane and a plurality of light sources to a total reflection type light transmitting element or an optical fiber bundle, wherein the converting optical system includes at least first and second lens units having the same focal distance and being disposed so that a distance between principal points of the two lens units becomes equal to the focal distance as recited in base claims in claims 2-5, 12-15, 19-24 and 29-41, and wherein the converting optical system includes an optical rod and a lens unit, wherein a light entrance surface of the optical rod is disposed substantially in coincidence with the predetermined plane upon which the image of the light source is formed, while a light exit surface of the optical rod is disposed substantially in coincidence with a front focal plane of the lens unit, and a rear focal plane of the lens unit is disposed substantially in coincidence with a light entrance surface of the light transmitting element or optical fiber bundle as recited in the base claims in claims 42-53.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alan Cariaso whose telephone number is (571) 272-2366. The examiner can normally be reached on 9-5:30 M-F.
